

2016 Minnesota Wheat Varieties

We would like to thank all of the Minnesota wheat producers who responded to our annual wheat variety survey. The results of this survey help guide our U of M spring wheat breeder, Jim Anderson, in developing suitable varieties for production in Minnesota. The results of the survey tell us what varieties are most popular, and what characteristics are most important to you as growers. We hope that this will improve in the future. Next year, when you receive the survey, please take a few minutes to complete and return it.
